	N. H. Scheppers Distributors
	Tim's Flyshop, Cassville, Mo.
	Windrush Farm / Springrise

I never lost a little fish,
Yes I am free to say.
It always was the biggest fish
I caught, that got away.
(Eugene Field 1850 - 1895)

TROUT UNLIMITED

T.U. Mission Statement:

"To conserve, protect, and restore North America's coldwater fisheries and their watersheds."

For 40 years, T.U. has been America's foremost trout and salmon conservation organization. T.U. is involved with planning and building stream improvement projects, working with government agencies to secure appropriate legislation, and teaching our young the importance of protecting wild fish and their habitat. T.U.'s efforts help protect and conserve the aquatic life, both plant and animal, of our streams, the birds and mammals dependent on the water source for survival, and the quality of water for our own use by protecting the stream's watershed.

In Columbia, Mo., the local T.U. Chapter #493 has been actively involved in projects at various levels:

- A) Nationally - Our chapter has donated funds for the Three-Dollar Bridge Project, the Jefferson River Project, and the Casting for Recovery Project (a program supporting female breast cancer survivors).
- B) Statewide - We have helped in the past to establish handicap access to Missouri's trout streams. We sponsor a speaker for the Midwest Trout and Trout Angler Conference. We are involved with instream habitat enhancement at Mill Creek, Barren Fork, and Spring Creek; and, in riparian reforestation at Mill Creek and Spring Creek. We have also assisted in fish surveys in several Missouri creeks.
- C) Locally - Our members assist in education at Rock Bridge High School's flyfishing course. We also participate annually in the Department of Conservation's Day With Wildlife.
