

MID MISSOURI chapter Trout Unlimited

Volume: 1 Number: 5

July, 1986

This Newsletter is dedicated to my new pup, Skyler. Sky's 62 days old as I write this newsletter. He's a male, black Labrador and sits at shoe tops as I write this. He's one of the reasons this newsletter has been so brief recently. Anyway, he seems to be progressing on schedule and should be able to go astream with me shortly.

NEXT MEETING:

Tuesday, July 1, 1986

7P.M. Ellis
Fischel Hospital,
Business Loop 70
Columbia, Mo.
(7th Floor Class-
room)

AGENDA:

1. Administrative Business, Ed Sullivan
2. Western Trout Fishing
Slide show and talk by Fred Grimes of the Meramec Basin Chapter (St. Louis). Fred will concentrate primarily on fishing in Idaho and Montana. Should prove to be an informative lecture, particularly if any of you are planning a trip out west this summer.

NATIONAL T.U. CONVENTION IN AUGUST

Trout Unlimited's 1986 National Convention is schedule for August 3, through August 10, in Olympia Washington. Some excellant trout and Salmon fishing is available out there, and it's only a hop, skip and a jump away from the World's Fair in Vancouver. For more info. Write Trout Unlimited '86, P.O. Box 2137 Olympia Washington, 98507, or call 206-533-3122.

Other UPCOMING EVENTS

July 8th - Board of Director's Meeting. Come on folks, we're going to have to get hot on the track for planning our annual dinner next February. Attend the meeting if you would like to help plan our dinner.

SPARE CHANGE, UPGRADE YOUR NATIONAL MEMBERSHIP.

National T.U. is hurting, primarily because many of the advertisers aren't paying their bills in the magazine. If you have some spare change, or can calculate some of your savings with the lower gas prices lately, upgrade your membership a notch and help T.U. get out of this temporary recession.

August 5th - Monthly Meeting. We will be moving east - Bart Elliott and myself will give a slide presentation and discussion on Catskill fly fishing. Bart just returned from this year's outing and has some great slides to share with you. In addition, we will have some books on display which are good sources of information for the Catskill area and some samples of some fly patterns that we have found to be productive.

August 12th - Board of Director's Meeting.

September 2nd - Monthly meeting. Chuck and Sharon Tryon will join us and discuss the goals and methods of our tree planting program scheduled for next March on the Spring Creek.

September 9th - Board of Director's Meeting.

I hate to keep harping on money, but our local dues are hurting also. If you haven't paid your local dues, think about it, it keeps things rolling along.

CHARLES BYERS

JOHN WENSLICK

This is another shorty folks. The summer's a busy time. I'll just leave you with a fly pattern and say so long, til next month so I can get this to the presses and in the mail.

CREAM CAHILL

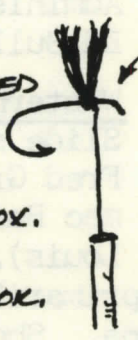

This pattern worked extremely well on the Current River several weeks ago.

Here's the recipe:

- Hook Size: 10 -16, Mustad 94840
- Wing: Very pale cream mallard flank feather.
- Body: White, or pale cream polypropylene.
- Hackle: Two, white or cream dry fly hackles, sized to hook.
- Tail: Tan, or ginger hackle fibres

Here's the pattern:

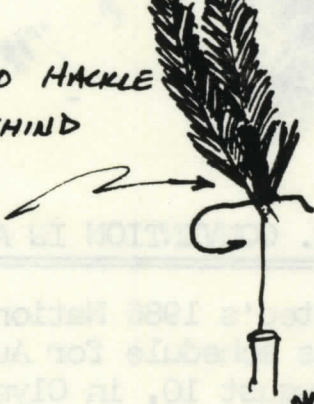

1. TIE-IN LIGHT COLORED MALLARD FLANK WINGS. WINGS SHOULD BE APPROX. AS LONG AS THE SHANK OF THE HOOK.

TIE-IN WITH FIGURE EIGHT TO SPLIT WINGS.

IMPORTANT: TIE-IN WING AT "1/3 POINT" ON HOOK. TO FAR FORWARD AND FLY WILL FLOAT ON ITS "FACE."

2. TIE-IN TWO HACKLE FIBRES BEHIND WING.

3. WIND THREAD TO REAR OF HOOK AND TIE-IN TAIL HACKLE FIBRES.

- MAKE ONE WRAP UNDER TAIL TO HOLD MORE SECURELY IN PLACE.

3. DUB TAPERED BODY UP TO WINGS AND HACKLE FIBRES.

- DUB BODY TIGHTLY AND USE JUST ENOUGH DUBBING TO COVER THREAD.

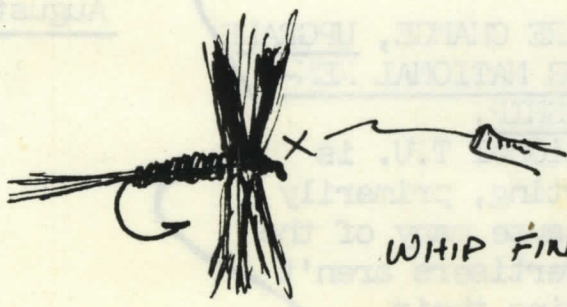

4. WIND EACH HACKLE SEPARATELY.

APPROX. TWO WRAPS EACH BEHIND AND IN FRONT OF THE WING.

5. WHIP FINISH!
