

MID MISSOURI chapter

Trout Unlimited

Volume: 1 Number: 2

The February meeting (Feb. 7~~8~~, at 7:00 PM; Ellis Fischel Hospital) will cover Basic Fly Tying Techniques with Bill Lamberson. A video camera and monitor will be used so everyone will be able to see exactly what is going on. Bring your fly tying equipment and follow along. Along with Bill's tutoring, others of us will be helping those who would like special attention to anything from basic techniques to advanced techniques or styles.

The Federation of Flyfishers will be holding a one day seminar by Gary Borger on Saturday, February 11. The event will be held at the St. Louis Court Council Chambers in Clayton, 41 South Central. There will be 5 sessions starting at 9:00 a.m. and ending at 4:30 p.m. The sessions will cover nymph fishing, angling strategy, reading water, where trout are (travel log), and a fly tying demonstration. The cost will be \$5.00.

We are presently working with the Missouri Highway Department to finalize the Adopt a Highway Program for our club. When this is complete, we will be setting up a work date. Hopefully this will be in the first part of April.

A future issue of this newsletter will include a list of member's addresses and phone numbers as we presently have them in an effort to make it easier for anyone looking for a fishing partner for the day to know where to call. If you do not want your name on the list, get in touch with Garry Teeple or Mitch Ruth.

Two of our members were recently featured in the local media. The Columbia Daily Tribune did an article on Ed Sullivan and Spring Creek. Terry Finger was featured on KMIZ-17 evening news segment on the great outdoors. Terry's tying skills along with his flies and his background from the Catskills were discussed.

The Boat and Sport Show sponsored by the Ozark Mountain Anglers Bass Club, Inc., will be from March 3rd-5th. Times are Friday from 3-9p.m., Saturday from 10a.m.-9p.m., and Sunday from 11a.m.-4p.m. Our club will have a booth all three days and people will be needed to man the booth at all times. All that is needed is to talk trout, possibly tie flies and sell a few banquet tickets. Please sign up for two hour stretches on the form below and send it back to Garry Teeple as soon as possible.

Name _____ Phone # _____

First time choice _____

Second time choice _____

Third time choice _____

The Spring Creek work project is to be held on March 4th. More details later.

Fishing Trip

The time is now to start planning for one of the most fantastic fishing trips of all time. Prior planning and your total knowledge of fishing will be required. Travel plans are sketchy at this time and may be only one way, baggage weight must be kept to a minimum and compact as possible but the type of equipment is not known at this time. The types of fish are unknown, probably have never seen a fly before, but are undoubtedly of the trout family due to climate. Granted, there are a lot of details to be worked out, a great deal of time and money to be spent but according to a recent magazine seen on the news stand: Yes, it is an amazing discovery, fish have been reported in the canals of Mars.
